I. Introduction

A. Purpose of Request

The Minnesota Department of Human Services, through its Aging and Adult Services Division (State), is seeking proposals from qualified responders to develop and/or provide services for older Minnesotans to live in the community, and to improve their community's capacity to develop, strengthen, integrate, and maintain home and community-based services for individuals age 65 and older, at-risk of long-term nursing home use and/or spending down into Medical Assistance. Proposals may include strengthening services for the caregiver support and respite care network.

Grants are intended to stimulate innovation by providing one-time, start-up funds to test new approaches in housing and home and community-based services development, and to develop and support core home and community-based service providers. More detail can be found in [Home and Community-Based Services For Older Adults Minnesota Statutes, section 256B.0917, subd. 1a and 1b](#), [Caregiver support and respite care projects Minnesota Statutes, section 256B.0917, subd. 6](#), [Core home and community-based services Minnesota Statutes, section 256B.0917, subd. 7a](#), [Community service grants Minnesota Statutes, section 256B.0917, subd. 13](#), and the [Community services development grants program Minnesota Statutes, section 256.9754](#).

During State Fiscal Year (SFY) 2019 it is estimated that approximately \$8 million will be available to successful responders.

B. Objective of this RFP

The objective of this RFP is to contract with a qualified responder(s) to perform the tasks and services set forth in this RFP. The term of any resulting contract is anticipated to range from 9 to 21 months, from October 1, 2018 until June 30, 2020, with the option to potentially extend beyond that date. The maximum initial award per year is \$350,000. There is a dollar-for-dollar or 50 percent matching requirement for all grant funds expended.

Proposals must be submitted through the electronic submission process described in section IV by 4:00 p.m. Central Time Friday, June 29, 2018. Electronic submissions are entered online at <http://www.mn.gov/dhs/live-well>. This RFP does not obligate the State to award a contract or complete the project, and the State reserves the right to cancel the solicitation if it is considered to be in its best interest. All costs incurred in responding to this RFP will be borne by the responder.

C. Background

In 2000, the Long-Term Care Task Force of the Minnesota Legislature was convened to address critical long-term care issues. In 2001, based on the recommendation of the Long-Term Care Task Force, the Minnesota Legislature enacted a number of strategies intended to reshape long-term care. The central theme of the reforms passed by the Minnesota Legislature was to

reduce Minnesota's reliance on nursing homes and to increase care for older persons in the community by expanding home and community-based service options.

One element of the strategy provided funds under the Community Service Grants (Minnesota Statutes, section 256B.0917, subds.1a and b, 6, 7b and 13) and the Community Services Development Grants Program (Minnesota Statutes, section 256.9754) to provide a catalyst to further reshape the state's long-term service and support system. Grants are administered through the Minnesota Department of Human Services, Aging and Adult Services Division. The department began funding projects through the grant program in 2002.

Grants are available to public, private for-profit and non-profit agencies to strengthen a community's ability to provide affordable long-term services and supports for older persons. The funds are for projects that expand, integrate and help sustain the services and infrastructures that enable older adults to remain in their own homes and communities. They also support family caregiving and further the integration of medical and long-term services and supports in local communities. Grants promote the development of services that are available to people of all income levels, in particular to those who are eligible for public programs and that expand affordable options that are sustained through the private market. Grants are also available to fund capital and renovation projects to help transition the state's long-term services and supports capacity into community-based settings. These projects include new construction, renovation or remodeling of existing buildings to provide innovative and affordable housing and services for older adults.

Grants are used to change the long-term service and support system in conjunction with a variety of federal, state, local and private funding sources for long-term services and support such as, Older Americans Act funds, Medical Assistance, foundation grants and private pay resources. Grants coordinate with federal grants designed to further the State's work reforming its long-term services and support system such as: Centers for Medicare and Medicaid Services Money Follows the Person and Medicaid Reform. The Grants have also promoted new models of information and assistance through the Minnesota Help Network—Minnesota Aging and Disability Resource Center initiatives.

Grants are informed by the 2015-2016 Gaps Analysis found at <http://mn.gov/dhs/partners-and-providers/continuing-care/data-measures/gaps-analysis/index.jsp> and the 2017 Status of Long-term Services and Supports legislative report https://mn.gov/dhs/assets/2017-08-long-term-services-supports_tcm1053-309107.pdf

Aging 2030

In order to address the challenges and opportunities of the increase in Minnesota's older population and the resulting permanent shift in the age of the state population, the Minnesota Department of Human Services, in partnership with the Minnesota Board on Aging and the Minnesota Department of Health, initiated Aging 2030 in 2011. This project focuses on five key themes listed below to prepare Minnesota for the greatest challenges posed by the growth in health and long-term services and supports needs.

1. *Redefining Work and Retirement*: seeks to engage older Minnesotans in “vital aging” opportunities such as volunteerism and civic engagement.
2. *Supporting Caregivers of All Ages*: increases the supply and the types of caregiver supports and respite care services available, increases public awareness of these services, and activates informal networks to support individuals who do not have family or other supports.
3. *Fostering Communities for a Lifetime*: transforms the physical infrastructure of a community to provide greater housing and mobility as well as strengthening a community’s capacity to provide affordable supports to older people wanting to age in place and the products and services that help community residents stay independent and engaged as they age.
4. *Improving Health and Long-term Care*: promotes health by helping people maintain their health and independence, increasing consumer control, and ensuring that people with multiple chronic conditions have access to quality chronic care.
5. *Maximizing the Use of Technology*: expands the use of technology to help people remain independent, using tele-health and related technology to address worker shortages and distance issues, and uses the Internet to expand access to information about resources for consumers and their families.

Grants have been used to implement many of the action steps proposed by Aging 2030. The funds have served as “venture capital” that has allowed community partners to be innovative in developing new, cost-effective and sustainable approaches to help older Minnesotans maintain their health and independence. They have helped to expand the supply and variety of home and community-based service options for older adults in the community.

In 2011, the leading edge of the baby boom generation born between 1946 and 1964 began to turn 65 at the rate of 10,000 per day across the United States. Between now and 2030, Minnesota will experience the most profound age shift in its history. Along with the rest of the nation and the world, we will become older not just as individuals but as a society. In addition, there will be a significant increase in ethnic and cultural community members whose needs must be addressed with culturally competent services.

According to Minnesota State Demographic Center, between 2010 and 2030 the number of people in Minnesota age 65 and older will double. The fastest growing segment of Minnesota’s aging population are those people over the age of 85 who are most likely to need the support of family, friends and the community to remain living independently. In 1990, one in eight Minnesotans was 65 years or older. In 2030, nearly one in four Minnesotans will be 65 years or older. The aging of our society will create exceptional pressures on the existing long-term service and support system, and the next 10 years are a critical time to prepare for the challenges Minnesotans will face in the future when health and long-term services and supports needs soar.

Because the State is a major payer of long-term services and supports, this demographic shift will place more pressure on the State's budget. We must focus on key strategies that will help prepare for this increase.

One strategy is to invest in developing community-level housing and service solutions that help people avoid the public safety net. Minnesota's long-term services and supports system must allow older Minnesotans and their families more autonomy and choice for their care. These community-based options must be based on the preferences of consumers, be market-driven and include more cost sharing options. A second strategy is to improve the integration of medical and long-term services and supports, including home and community-based services, so we can better serve consumers and improve the efficiency and effectiveness of these services. A third strategy is to achieve positive outcomes for older adults, so they are able to achieve their goals for independence and aging in place. Successful aging in place addresses significant health issues such as diabetes care and cognitive decline as well as the impact of other conditions such as hearing and/or vision loss.

II. Scope of Work

A. Overview

This RFP provides background information and describes the services desired by the State. It delineates the requirements for this procurement and specifies the contractual conditions required by the State. Although this RFP establishes the basis for Responder Proposals, the detailed obligations and additional measures of performance will be defined in the final negotiated contract.

Two general categories of proposals for grants are requested:

- 1) Capital and Renovation grants (\$350,000 or less) pursuant to Minnesota Statutes, section 256.9754.
- 2) Long-Term Services and Supports Development grants (\$350,000 or less) pursuant to MN Statutes, section 256B.0917, subds. 1a, b and 13. Core Home and Community-Based Services (\$30,000 or less) pursuant to MN Statutes 256B.0917, subd. 7a.

Category 1– Capital and Renovation Requests

Applications in this category cover new construction, renovation, retrofitting, home modification, transportation and technology.

Applications may be made for grants to cover the capital costs of new construction, renovation, retrofitting, or remodeling of existing buildings or accessibility modifications in individuals'

homes. Renovation and remodeling should result in the delivery of unique approaches to housing and services, affordable housing units suitable for home care services or combinations of services, to residents age 65 and older with low and moderate incomes and persons with a variety of chronic health conditions. Retrofitting should produce savings for older adults as it reduces costs of medical care and other services. It should focus on homes that lack the necessary structural features and support systems to make aging in place viable.

The State seeks Responders who promote self-sufficiency, independence, quality-of-life values, e.g., safety, privacy, space to enjoy relationships and individual and/or community activities, and integration into the larger community. Responders should demonstrate how those values are supported by the proposed home modifications or new construction, technology or services.

For new construction the State requires single, lockable, occupancy living units that have at a minimum private lavatories and showers (3/4 baths), a food preparation area suitable for a mini-refrigerator and microwave, and that have a total of at least 350 square feet. Accessible common and living areas are preferred. Both physical accessibility and communication accessibility (using hearing loops, for example) are important in common and living areas. Priority will be given to development of projects in communities in which there are no housing with services within a 15 mile radius of the proposed project site and a community need is clearly demonstrated. The requirements listed above are preferred for renovation and nursing facility conversion projects. These projects should result in apartment-based housing or settings that are licensed as board and lodge facilities. Units intended for use in memory care programs must be built so that potentially hazardous plumbing and electrical elements may be disabled.

Renovation, retrofitting and home modification includes making existing housing units accessible and/or incorporating elements of universal design. Information on universal design is available by contacting a Certified Aging-in-Place Specialist (CAPS). These specialists can be located at <http://www.nahb.org/en/learn/designations/certified-aging-in-place-specialist.aspx>. There are several within Minnesota. CAPS are trained in the unique needs of older people and have a strong grounding in universal design – designing homes to maximize the safety, usability and comfort of all residents.

The State expects projects to incorporate the latest in technology, design features, universal design and appropriate home modifications into capital or renovation requests where possible. Buildings may include existing nursing facilities, subsidized senior apartment buildings, board and lodge, adult foster care homes and private homes of persons with low to moderate incomes.

Applications in this category may include other minor expenses such as alterations of office space, purchase of laundry, kitchen and bath equipment, and start-up costs, such as: training and other onetime expenses. Home modifications to individuals' homes or apartments can also be funded when the planned modifications are part of meeting broader community needs.

We are also interested in proposals that focus on new approaches to providing housing and services that support groups of consumers who may desire housing options that have forms of joint ownership and with innovative purchase and delivery of basic services models, especially for those who can pay privately. This category would include funding an organization that would test their model and develop a manual or guide based on its experiences developing that prototype.

Category 2 - Long-Term Services and Supports Development Requests

The State of Minnesota is committed to helping older adults and their family caregivers manage risk factors that may lead to a nursing home placement and/or spending down into Medical Assistance and purchase support to sustain independent community living, control publicly funded health and long-term services and supports spending, improve integration between health and long-term services and supports, and increase home and community-based services capacity. This service capacity includes, but is not limited to, community supports such as: chore, homemaker, caregiving support, respite, chronic disease management to enable those persons most at risk to avoid unnecessary nursing facility placement.

The State is also committed to ensuring that any long-term services and supports development is sustainable into the future. The Live Well at Home Grants provide funding and incentives to make some long-term service and support changes possible. Live Well at Home Grants are used to test new approaches to prevention, risk management, and community living support targeted towards persons spending down to eligibility for Medical Assistance and its waivers or at-risk of long-term nursing home placement. These approaches should also be available to private pay individuals who can use some of their own resources to purchase services that meet their needs.

Characteristics of at-risk older adults may include but are not limited to:

- Needing assistance with one or more activities of daily living.
- Experiencing an injurious fall in the past six months.
- Thinking about moving to a nursing home or assisted living facility.
- Experiencing memory loss or difficulty with making decisions.
- Receiving care from a family member who is overwhelmed or stressed because of their caregiving role.

Different service delivery models are needed to reduce and/or stabilize risk factors, manage chronic conditions, optimize independent community living, and ensure alternatives to long-term stays in nursing facilities. Disparities in access to home and community-based services and supports for hard-to-reach populations need to be addressed. The State recognizes that tribal nations, counties, managed care organizations and healthcare systems, area agencies on aging (AAAs), quasi-formal service providers (e.g., faith-based, culturally-focused or other volunteer resources), and others, are key to integrated long-term service and support delivery.

The selected projects will address one or more of the following objectives:

- Expand, integrate and maintain essential community support services that enable older adults to remain in their own homes and communities;
- Integrate medical and home and community-based services and promote self-management of chronic disease and other risk factors, including support for family and informal caregivers;
- Support individual choice, control, and private pay purchasing;
- Support at-risk families and informal caregivers;
- Facilitate collaboration between long-term service and support providers, health care providers, other state agencies, other funders, policy makers, community organizations, local businesses including employers and consumers; and
- Use a variety of technologies to help people live in the community, assess needs, manage health and chronic disease, deliver services and caregiver support, monitor and evaluate outcomes, improve quality, purchase and manage services by consumers, supervise and train staff, manage data, simplify administrative and service delivery processes, reduce costs and/or provide more consumer autonomy and choice. The goal is to use technology to close the distances and remove impediments that act as barriers to home and community-based services.

The majority of older Minnesotans prefer to age in their own home and communities for as long as possible. However, the aging of the population will pose new challenges for the delivery of home and community-based services such as chore, homemaker, in-home services, transportation and housing.

The State supports quality care and services so older Minnesotans can live independently in the community in the least restrictive setting of their choice. The State does this by working in collaboration with partners to fund the development of a comprehensive and coordinated system of long-term services and supports. Partners include, but are not limited to, counties, Area Agencies on Aging, nursing facilities, health plans, health care systems, physicians and clinics, consumers, universities/colleges, public and private housing owners, employers, tribes, local social service providers, faith-based organizations, grass-root organizations, and other for-profit and non-profit organizations. All partners are encouraged to strengthen their community relationships with diverse populations whose ethnic, cultural, language, social, sexual, gender or residential status or other factors indicate that specialized services will aid the population(s) in reaching their full health potential as defined by the Minnesota Department of Health.

These long-term service and support partners are critical to developing and delivering services and supporting self-directed service options that enable older Minnesotans to live in their own homes and communities. Supporting families and informal caregivers, strengthening the long-term service and support system, integrating consumer services, using specific evidence-based practices and maximizing the use of limited funding resources requires collaboration among public health, housing, health care and long-term services and supports system stakeholders, local businesses and governments. Strengthening the community-based long-term service and support system also involves identifying state and federal policies, service delivery structures,

and funding mechanisms that may be barriers to addressing strategic goals for optimizing independent living for older adults.

The State is interested in funding projects in the following priority areas:

Core Home and Community-Based Services

Core home and community-based services aim to strengthen and develop additional home and community-based services and alternatives to nursing homes and other residential services throughout Minnesota to allow people (regardless of income) to remain in their own homes for as long as possible. They complement community services by covering some fixed costs for small non-profit providers offering community services and additional services such as, but not limited to: transportation, home modification, chore and companion.

Responders eligible for the core home and community-based services grants must be a core home and community based services provider as defined in Minnesota Statutes, section 256B.0917, subd. 1b(c). Organizations funded under core home and community-based services have operating budgets of \$175,000 or less annually and serve a geographically limited area. Priority will be given to the development of new core home and community-based service providers in communities where there is a lack of affordable services available. Priority will also be given to those existing core home and community-based service providers expanding into adjacent unserved communities. A strong community need must be clearly demonstrated throughout the proposal. Recipients of core home and community-based service grants are required to generate income by charging for services through the use of a sliding scale fee.

Community Supports

Develop, expand and sustain service(s) that are critical to maintaining community living for older adults and their family and informal caregivers. Such services include respite (group, crisis, evening, weekend), chore, homemaker, transportation, personal emergency response, assistive technology home delivery, adult day, community living assistance, caregiving support and education. In order for different home and community-based services to be considered, local evidence of the need for the service(s) must be provided. These cost-effective services, when provided to an individual who is beginning to experience a need for home and community-based services and supports, can stabilize an individual and prevent or delay their spenddown to Medical Assistance or a move to an assisted living or nursing facility.

These services are needed by older adults regardless of income level. Proposed service models must determine the true unit cost to deliver the service(s) and incorporate a sliding fee scale in order to ensure access for all individuals to the services. Equally important is maximizing the use of volunteers, unlicensed service professionals and other community resources to maximize the availability of services in a proposed geographic area.

Of particular interest are:

- a) Proposals from culturally centered organizations;
- b) Models that propose to serve culturally and racially diverse older adult populations; and
- c) Models that serve older adults in rural areas.

New models of service delivery that consolidate administrative capacity across agencies to achieve greater efficiencies, and connect these high priority individuals with services are needed given the current economic climate and the rapidly increasing numbers of these older adults. Include technical assistance costs in your proposal that will help explore the use of advances in technology to enhance your services.

Healthy Aging

Support high risk older adults to better manage their chronic conditions, improve their quality of life, lower health care costs and maintain their independent living through opportunities for: education and training, medication management, care transitions or other programs that utilize proven evidence based or informed self-management techniques.

These programs will increase access to evidence-based health promotion and disease management interventions to prevent onset, or manage chronic conditions, and fall risk. Evidence-based disease prevention and health promotion programs reduce the need for costly medical interventions. Programs offered should assist individuals who are at-risk for hospitalization or placement in a long-term care facility or who are beginning to experience the need for home and community-based services. Programs offered can provide opportunities to improve access to long-term care decision support for individuals and their family caregivers and connect them to flexible community supports (see above) and resources to help them better manage their health status and ongoing health conditions.

For information on evidence-based health promotion/ disease prevention programs:

<https://www.ncoa.org/resources/highest-tier-evidence-based-health-promotion-disease-prevention-programs/>.

Homeless Support Services

Develop new models of Homeless Support Services to provide assistance to older adults who are experiencing homelessness to move into stable housing, receive the services and supports they need, and access non-emergent health care services. The goal of these service models is to help high risk older adults to stabilize their living arrangement and their health so they can avoid emergency room admissions and reduce their risk for experiencing homelessness again.

Types of transitional assistance provided through these models may include:

- Accessing and maintaining stable housing:
 - lease and rental deposits.
 - essential furniture.
 - utility set up fees and deposits.
 - personal supports to help locate and transition to the community-based housing.
 - basic household items.
 - personal items.
 - window coverings.
 - one time pest and allergen treatment of the setting.

- Applying for and receiving publicly-funded long-term services and supports, mental and chemical health services.
- Applying for and receiving income subsidies, food support and other public benefits
- Coordination of services and supports

A successful Responder must develop indicators of the success and effectiveness of the program and be able to measure and evaluate them to determine outcomes. This section should describe the methods and criteria that will be used to measure whether the project goals and objectives have been achieved.

Program and financial sustainability must be explicitly addressed as one indicator of the proposed evaluation. List surveys or other assessment tools you will propose to use to assess and measure pre- and post-participant outcomes and how results will be summarized.

In this section, describe what lasting effects will be produced by the project and how your organization will continue the proposed project after the ends. Discuss the relationship with other organizations that you have or will develop further that will help maintain the proposed project long- term.

6. Nursing Facility Closure Preference (20 points): Applicants are encouraged to provide the name of one nursing facility in the project's service area that has or is permanently closing nursing facility beds under [Minnesota Statutes, section 256.9754, subd.5](#) after January 1, 2018. Applicants that cite a nursing facility closure will illustrate throughout the proposal requirements how they are working with the cited nursing facility to strengthen and integrate their community's home and community-based service capacity for people at-risk of long-term nursing home use and or spending down into Medical Assistance will receive maximum points. One way to do this is to develop an MOU between the two organizations and upload it to the grant Application.

7. Budget proposal (300 points): This section should specify the grant amount requested and detail all expenses for the proposed project by (1) completing and uploading the provided budget template excel spreadsheet and (2) creating and uploading a fee schedule to the Grant Application Service Center.

- a. Budget. Describe and explain what the estimated costs pay for. Identify what other ancillary services are being provided that have costs associated with them and which components are essential to delivering minimum quality services. Responders should include a budget narrative for itself and each subcontracting agency, if any. See pages 17-21 of the RFP for line-by-line instructions on how to complete the budget.

Explain the proposed use of the grant funds and matching funds. A fifty percent match is required. This is a dollar-for-dollar match up to the \$350,000 maximum grant amount requested. Responder's explanation should provide sufficient detail to justify the total amount budgeted in each category. The program budget must be complete and reasonable, must link to the proposed program activities, and must specify how the amounts for each budget item were determined. Five percent of the total budget may be allocated to cover evaluation costs.

Responders are encouraged to apply for only the amount needed for their proposed programs. The total available funds will not necessarily be divided equally, nor will selected Responders be guaranteed the entire amount requested. Budget proposals will be judged on efficient use of funds (that is, funds are being spent on direct services versus administrative costs, as detailed in their budget proposal) and overall cost-effectiveness and likelihood of becoming financially sustainable by the end of the grant period.

- b. **Fee Schedule.** Projects should decrease reliance on grant funding after the initial grant period. This section should include a narrative that describes how the project will become financially sustainable and when sustainability will be achieved. Demonstrate a transition to self-sufficiency and reflect the transition clearly in the budget as well. The Fee Schedule should clearly articulate the true unit cost for each service and establish a fee schedule for all persons served by the project including individuals who are not income eligible for public programs that includes a conforming sliding scale fee schedule for persons not able to pay the full cost of the service. When describing the fee schedule, keep in mind the different people served and the funding sources available to cover the costs, such as private pay, Older Americans Act -Title III and Medicaid waivers.

Responders providing community services must indicate that they intend to receive payment from appropriate sources for individuals eligible for publicly funded programs and have a fee schedule in place. Applications that include community services but do not provide this information will have their budgets adjusted prior to contract if selected.

Upload one budget Excel template and fee schedule to the online Application.

For capital and renovation projects only. In order for responder to demonstrate that it meets the requirements on page six (6) of this RFP, responder must complete and upload the following documents to the Grant Application Service Center > Budget:

- Property Income/Expense Worksheet
- Development Cost Worksheet

Instructions for Preparing Budgets

PERSONNEL

Cost of staff salaries and wages of Responder/grantee staff.

BUDGET JUSTIFICATION: Specify the key staff (first and last name), their titles, brief summary of project related duties, and their time commitments to the project, based on full time equivalent. Individuals who are not directly employed by the Responder/grantee organization but work on the grant should be listed under the contracts line item. Consultant costs or professional fees should be included under the "Other" line item.

FRINGE BENEFITS

Enter the total cost of fringe benefits, unless treated as part of an approved indirect cost rate.

TRAVEL

Cost of local and out of town travel for staff of the project.

BUDGET JUSTIFICATION: Reimbursement to project staff for travel and subsistence expenses is to be made consistent with the current “Commissioner’s Plan” as promulgated by the Commissioner of Employee Relations. The Commissioner’s Plan states the current reimbursement rates for travel and subsistence expenses in Chapter 15: Expense Reimbursement.

Travel rates must not exceed State of Minnesota rates.

- *Lodging:* Actual and reasonable costs.
 - *Mileage:* Is based on Current Federal IRS mileage reimbursement rate. Mileage allowance may not exceed the State maximum, currently 54.5 cents per mile (2018). Include the total number of trips, destinations, purpose, length of stay, transportation cost (including mileage rates).
 - *Meals:* In State: Breakfast- \$9.00, Lunch- \$11.00, Dinner- \$16.00
1. **Breakfast.** Breakfast reimbursements may be claimed if the employee leaves his/her temporary or permanent work location before 6:00 a.m. or is away from home overnight.
 2. **Lunch.** Lunch reimbursements may be claimed if the employee is in travel status more than thirty-five (35) miles away from his/her temporary or permanent work location or is away from home overnight.
 3. **Dinner.** Dinner reimbursements may be claimed only if the employee is away from his/her temporary or permanent work location until after 7:00 p.m. or is away from home overnight.

Do not include travel expenses for subcontractors or Responder/grantee’s clients under travel, expenses incurred for clients list under other. Include the total number of trips, destinations, purpose, length of stay and transportation costs (including mileage rates).

BUILDING SPACE/UTILITIES

Space rental and heat, water, electricity, sewer, telephone, cell phone, internet utilities

BUDGET JUSTIFICATION: Specify whether the space occupied is rented or owned and whether or not the costs include utilities and other occupancy related charges. Include the number of square feet and the percentage of time used for grant purposes. For example; 1,500 square feet x \$25/ft. x 50%=\$18,750.

CONSTRUCTION (CAPITAL AND RENOVATION REQUESTS ONLY)

Actual construction costs including contract labor

BUDGET JUSTIFICATION: Enter actual construction cost including contract labor, acquisition and installation of fixed equipment, architectural and engineering services, site clearance, land acquisition and sidewalks necessary for use of facility.

Unallowable Costs: Bonus payment other than earned incentive payments to contractors under formal incentive arrangements; construction of shell space designed for completion at a future date; consultant fees not related to actual construction; damage judgment related to lawsuit(s); equipment purchased through a conditional sales contract; fundraising expenses; legal services not related to site acquisition; off-site improvements such as parking lots.

EQUIPMENT

Costs of all equipment to be acquired by the project. For all Responders/grantees, "equipment" is non expendable, tangible, personal property having a useful life of more than one (1) year and an acquisition cost of five thousand dollars (\$5,000) or more per unit. If the item does not meet the \$5,000 threshold, include it in your budget under Supplies.

BUDGET JUSTIFICATION: Equipment to be purchased with State funds must be justified as necessary for the conduct of the project. The equipment must be used for project related functions; the equipment, or a reasonable facsimile, must not be otherwise available to the Responder or its sub-grantees. An explanation including the cost of purchases, cost and terms of all rental agreements and purpose of equipment should be explained. The justification also must contain plans for the use or disposal of sensitive equipment after the project ends.

SUPPLIES

Costs of all tangible expendable personal property (supplies) other than those included in equipment. Supplies include consumable commodities such as paper stock, pencils, print cartridges, photocopying, computers, projectors, mobile devices, chairs, desks, etc.

BUDGET JUSTIFICATION: Provide general description of types of items included. Explanation should indicate what items are included and how costs are estimated.

Unallowable cost: "Printing," is utilizing a professional printing service to make a color or black and white digital printing for high quality brochures and professional looking manuals. Printing is not an allowable line item cost. However, photocopying, a copy made on a copying machine and used in daily office operations is allowable.

CONTRACTS

Costs of all related subcontracts, including procurement contracts (except those, which belong on other lines such as equipment, supplies etc.) and any subcontracts with organizations or individuals for the provision of technical assistance and other services.

BUDGET JUSTIFICATION: For each line item listed under the heading of subcontracts, indicate the

name of the organization, the purpose of the subcontract, and the dollar amount. If the name of the subcontractor, scope of work, and costs are not available or have not been negotiated, indicate when this information will be available. If necessary, attach an additional page for hard copy submissions or outline the detail on tab four of your excel spreadsheet or within the “contracts” justification section.

OTHER

Costs not included in the above line items. Such costs, where applicable, may include but are not limited to: insurance, medical and dental costs; non-contractual fees and travel paid directly to individual consultants; postage, equipment rentals/lease; computer use; training and staff development costs (i.e., registration fees). Costs related to the management of volunteers such as recruitment, retention, recognition and mileage reimbursement.

BUDGET JUSTIFICATION: Provide an explanation for items in this category.

Enter volunteer expenses related to volunteer mileage (14 cents per mile driven in service of charitable organizations, 19 cents per mile for medical or moving purposes), food/beverages, recognition events, recognition items, background checks, insurance and other related volunteer expenses. Staff Development/Conferences - Describe the types of activities for staff development costs for each (i.e. workshops, training, seminars, Age and Disabilities Odyssey Conference, etc.). Client Transportation: Provide formula (including the number of units e.g. tokens, costs per unit, number of recipients, and months of service) for each specific area.

DIRECT COSTS

A “direct cost” is any cost that can be specifically identified with a particular project, program, or activity or that can be directly assigned to such activities relatively easily and with a high degree of accuracy. Direct costs include, but are not limited to, salaries, travel, equipment, and supplies directly benefiting the grant-supported project of activity.

ADMINISTRATIVE OVERHEAD COSTS

An “administrative overhead cost” also known as indirect cost is a cost for common or joint objectives that, therefore, cannot be readily identified with an individual, project, program or organizational activity. They generally include facilities operation and maintenance costs, depreciation and administrative expenses. Administrative overhead cost should not be requested in Applications for capital and renovation grants. When requesting administrative overhead costs, Responders/grantees should budget administrative overhead cost under the “other” category at a rate up to nine percent (9%) of modified total of direct costs.

Responders/grantees need to provide detail under the budget justification explaining costs associated with the request.

MATCH

“Match” is a specified percentage, specified as a fixed or minimum percentage of non-State and/or Federal participation in allowable program or project costs. Match must be contributed by a recipient in order to be eligible for State/Federal funding or a not-to exceed percentage of State participation. The source and amount of costs and/or the value of third – party, in-kind contributions proposed by the Responder to meet a matching requirement must be identified in the Application budget. Matching may not be used to match another federal or state grant; it

may only be used as match one time. Required match for Live Well at Home grants is dollar for dollar or 50 percent (50%) of total budget.

The following example shows how much “Match” each type of project would need to demonstrate if they were awarded \$50,000 in State Funds.

	State Funds Budget (Grant Amount)	Local Funds Budget (Match Amount)	Formula Used to Calculate Match Amount	Total Project Budget
Live Well at Home (50% Match)	\$50,000 50%	\$50,000 50%	State Funds Amount x 1	\$100,000 100%

Allowable Match: Cash; equity; loans, donations; local tax revenues; the actual value of dedicated staff/contractor time; volunteer time; the actual value of in-kind donations and other local match including the grantee’s share of construction costs; personnel time given to project; consulting fees; use of existing equipment or materials/supplies donated. Volunteer time is the estimated dollar value if the organization had to hire an individual to complete the task. Selected Responders will be asked to bring documents to verify match at the time of contract negotiation.

Cash match is either the Responder organization’s funds (general revenue) or cash donations from non-state third parties (i.e. partner organizations), or by non-state grants. In-kind match contributions are from the Responder organization or a “third party.” In-kind match is typically in the form of the value of personnel, goods, and services including direct and indirect costs.

Unallowable match: State funds; means tested direct services payments (i.e. Alternative Care [AC] program; Elderly Waiver [EW] program; Developmental Disabilities [DD] waiver program; Community Access for Disability Inclusion [CADI] waiver program; Community Alternative Care [CAC] waiver program; Brain Injury [BI] waiver program). Sliding scale fees or donations made for services provided as a result of this grant do not qualify as match funding.

C. Innovative Concepts

The detailed needs and requirements for Responders in this RFP are not intended to limit the responder's creativity in preparing a proposal. Responders may submit innovative ideas, new concepts, partnership arrangements, and optional features in response to this RFP. However, responder must still address the needs and requirements stated in this RFP. Submitting only a different idea instead of addressing the needs and requirements stated in the RFP will result in the responder's proposal being found nonresponsive and receiving no further consideration.

Any additional innovative concept submitted by a responder will only be reviewed after the required needs stated in the RFP have been addressed. The State will review such additional features to determine whether or not, in the State's sole discretion, the features enhance the rest of the responder's proposal. If, at the State's sole discretion, it is determined that the additional innovative concepts would enhance the rest of the responder's proposal, the State may award innovative concepts points to the responder's proposal in accordance with the evaluation process of this RFP.

Responders may demonstrate innovative concepts throughout the various proposal requirement sections. There is no specific section or text field designated as innovative concepts to complete in the Grant Application Service Center.

D. Required Statements

Complete the correlating forms found in [eDocs](#)¹ by searching for the form numbers referenced below, or pasting the form file path name found in the footnotes below to your browser, and submit them as the "Required Statements" section of your proposal. You must use the current forms found in eDocs. Failure to use the most current forms found in eDocs in completion of the proposal are at the responder's risk and may, at the discretion of the State, result in disqualification of the proposal for nonresponsiveness."

1. Responder Information and Declarations ([Responder Information/Declarations Form DHS-7020-ENG](#))²: Complete and submit the attached "Responder Information and Declarations" form. If you are required to submit additional information as a result of the declarations, include the additional information as part of this form. The Responder may fail the Required Statements review in the event that the Responder does not affirmatively warrant to any of the warranties in the Responder Information and Declarations. Additionally, the State reserves the right to fail a Responder in the event the Responder does not make a necessary disclosure in the Responder Information and Declarations, or makes a disclosure which evidences a conflict of interest.

² <https://edocs.dhs.state.mn.us/lfservlet/Public/DHS-7020-ENG>

2. Exceptions to RFP and Sample Contract Terms ([Exceptions to Terms and Conditions Form DHS-7019-ENG](#))³: The contents of this RFP and the proposal(s) of the successful responder(s) may become part of the final contract if a contract is awarded. Each responder's proposal must include a statement of acceptance of all terms and conditions stated within this RFP or provide a detailed statement of exception for each item excepted by the responder. **Responders who object to any condition of this RFP must note the objection on the attached “Exceptions to RFP Terms” form. If a responder has no objections to any terms or conditions, the responder should write “None” on the form.**

Responder should be aware of the State’s standard contract terms and conditions in preparing its response. A sample State of Minnesota, Department of Human Services, Grant Contract is attached in the Appendix for your reference. Much of the language reflected in the contract is required by statute. If you take exception to any of the terms, conditions or language in the contract, you must indicate those exceptions in your response to the RFP. Only those exceptions indicated in your response to the RFP will be available for discussion or negotiation.

Responders are cautioned that any exceptions to the terms of the standard State contract which give the responder a material advantage over other responders may result in the responder’s proposal being declared nonresponsive. Proposals being declared nonresponsive (failing) will receive no further consideration for award of the Contract. Also, proposals that take blanket exception to all or substantially all boilerplate contract provisions will be considered nonresponsive/failing proposals and rejected from further consideration for contract award.

3. Affidavit of Noncollusion ([Affidavit of Noncollusion Form- DHS-7021](#))⁴: Each responder must complete and submit the attached “Affidavit of Noncollusion” form. A proposal will fail this component if an Affidavit of Noncollusion is not submitted.

4. Trade Secret/Confidential Data Notification ([Trade Secret/Confidential Data Notice Form- DHS-7015-ENG](#))⁵: All materials submitted in response to this RFP will become property of the State and will become public record in accordance with Minnesota Statutes, section 13.591, after the evaluation process is completed. Pursuant to the statute, completion of the evaluation process occurs when the government entity has completed negotiating the contract with the successful responder. If a contract is awarded to the Responder, the State must have the right to use or disclose the trade secret data to the extent otherwise provided in the grant contract or by law.

If the responder submits information in response to this RFP that it believes to be trade secret/confidential materials, as defined by the Minnesota Government Data Practices Act, Minnesota Statutes, section 13.37, and the responder does not want such data used or disclosed for any purpose other than the evaluation of this proposal, the responder must:

³ <https://edocs.dhs.state.mn.us/lfsrserver/Public/DHS-7019-ENG>

⁴ <https://edocs.dhs.state.mn.us/lfsrserver/Public/DHS-7021-ENG>

⁵ <https://edocs.dhs.state.mn.us/lfsrserver/Public/DHS-7015-ENG>

a. clearly mark every page of trade secret materials in its proposal at the time the proposal is submitted with the words "TRADE SECRET" or "CONFIDENTIAL" in capitalized, underlined and bolded type that is at least 20 pt.; the State does not assume liability for the use or disclosure of unmarked or unclearly marked trade secret/confidential data;

b. fill out and submit the attached "Trade Secret/Confidential Information Notification Form," specifying the pages of the proposal which are to be restricted and justifying the trade secret designation for each item. If no material is being designated as protected, a statement of "None" should be listed on the form;

c. satisfy the burden to justify any claim of trade secret/confidential information. In order for a trade secret claim to be considered by the State, detailed justification that satisfies the statutory elements of Minnesota Statutes, section and the factors discussed in *Prairie Island Indian Community v. Minnesota Dept. of Public Safety*, 658 N.W.2d 876, 884-89 (Minn.App.2003) must be provided. Use of generic trade secret language encompassing substantial portions of the proposal or simple assertions of trade secret interest without substantive explanation of the basis therefore will be regarded as nonresponsive requests for trade secret exception and will not be considered by the State in the event of a data request is received for proposal information; and

d. defend any action seeking release of the materials it believes to be trade secret and/or confidential, and indemnify and hold harmless the State, its agents and employees, from any judgments awarded against the State in favor of the party requesting the materials, and any and all costs connected with that defense. This indemnification survives the State's award of a contract. In submitting a response to this RFP, the responder agrees that this indemnification survives as long as the trade secret materials are in the possession of the State. The State is required to keep all the basic documents related to its contracts, including selected responses to RFPs, for a minimum of six years after the end of the contract. Non-selected RFP proposals will be kept by the State for a minimum of one year after the award of a contract, and could potentially be kept for much longer.

The State reserves the right to reject a claim if it determines responder has not met the burden of establishing that the information constitutes a trade secret or is confidential. The State will not consider prices or costs submitted by the responder to be trade secret materials. Any decision by the State to disclose information designated by the responder as trade secret/confidential will be made consistent with the Minnesota Government Data Practices Act and other relevant laws and regulations. If certain information is found to constitute a trade secret/confidential, the remainder of the Proposal will become public; only the trade secret/confidential information will be removed and remain nonpublic.

The State also retains the right to use any or all system ideas presented in any proposal received in response to this RFP unless the responder presents a positive statement of objection in the proposal. Exceptions to such responder objections include: (1) public data, (2)

ideas which were known to the State before submission of such proposal, or (3) ideas which properly became known to the State thereafter through other sources or through acceptance of the responder's proposal.

A proposal may fail if a Trade Secret/Confidential Data form is not completed and submitted with the proposal.

5. Documentation to Establish Fiscal Responsibility: The successful responder must be fiscally responsible. Therefore, responders must include in their proposals sufficient financial documentation to establish their financial stability.

IRS Form 990s. If a responder is a not-for-profit organization that completed an IRS Form 990 in 2017, responder is not required to submit any material for this component (State has independent access to all IRS Form 990s and will review any filed Form 990s for each organization).

If responder is concerned that its 2017 IRS Form 990 does not demonstrate its fiscal responsibility, it may supplement its Application with any of the additional material described below. An IRS Form 990 is a federal tax return for nonprofit organizations. Nonprofit organizations that are recognized as exempt from federal income tax must file a Form 990 or Form 990 EZ if it has averaged more than \$25,000 in annual gross receipts over the past three tax years. Please do submit any information about any pending major accusations that could affect your financial stability.

Organizations without 2017 IRS Form 990s.

- (1) Organizations that have not completed and IRS Form 990 should submit a certified financial audit if they have one. A certified financial audit is a review of an organization's financial statements, fiscal policies and control procedures by an independent third party to determine if the statements fairly represent the organization's financial position and if organizational procedures are in accordance with Generally Accepted Accounting Principles (GAAP). Any organization with an annual revenue greater than \$750,000 is required to have a certified financial audit completed for any fiscal year in which they have total revenue of more than \$750,000.
- (2) If the organization does not have a certified financial audit, the organization must submit its most recent board-reviewed financial statements if it has a board.
- (3) If the organization does not have a certified financial audit or board-reviewed financial statements because it does not have a board, the organization should submit a certified statement of assets and debts (balance sheet) and evidence of cash flow including amounts in a checking account.

Responders may also include documentations of cash reserves to carry you through shortages or delays in receipt of revenue, and/or any other documents sufficient to substantiate responsible fiscal management.

State may request additional information from these responders as necessary to determine financial stability.

All responders must submit any information about any pending major accusations that could affect your financial stability.

In the event a responder is either substantially or wholly owned by another corporate entity, the proposal must also include the most recent detailed financial report of the parent organization, and a written guarantee by the parent organization that it will unconditionally guarantee performance by the responder in each and every term, covenant, and condition of such contract as may be executed by the parties.

If the responder is a county government or a multi-county human services agency that has 1) had an audit in the last year by the State Auditor or an outside auditing firm or 2) meets the requirements of the Single Audit Act, the responder is not required to submit financial statements. However, the State reserves the right to request any financial information to assure itself of a county's financial status.

The information collected from these inquiries will be used in the State's determination of the award of the contract. It may be shared with other persons within the Minnesota Department of Human Services who may be involved in the decision-making process, and/or with other persons as authorized by law. If you choose not to provide the requested information, your organization's proposal will found nonresponsive and given no further consideration. The State reserves the right to request any additional information to assure itself of a responder's financial reliability. If a responder's submission in response to this component does not demonstrate its financial stability, the responder may fail this requirement and be disqualified from further consideration.

6. Disclosure of Funding Form ([Disclosure of Funding Form- DHS-7018-ENG](#))⁶

Per the Federal Funding Accountability and Transparency Act of 2006 "Transparency Act" or "FFATA" (Public Law 109-282), all entities and organizations receiving federal funds are required to report full disclosure of funding (United States Code, title 31, chapter 61, section 6101). The purpose of FFATA is to provide every American with the ability to hold the government accountable for each spending decision. The end result is to reduce wasteful spending in the government. The FFATA legislation requires information on federal awards to be made available to the public through a single, searchable website. Federal awards include grants, sub-grants, loans, awards, and delivery orders.

⁶ <https://edocs.dhs.state.mn.us/lfsrver/Public/DHS-7018-ENG>

In order to comply with the federal statute, the Minnesota Department of Human Services is required to obtain and report by the grantee's Data Universal Numbering System (DUNS) number and determine if the grantee meets specific requirement which would require additional reporting items and to collect additional information on executive compensation if required. In order to comply with federal law and to collect this information, responders are required to fill out the Disclosure of Funding Form and submit it with their response. The form requires responders to provide their Data Universal Numbering System (DUNS) number. The Data Universal Numbering System (DUNS) number is the nine-digit number established and assigned by Dun and Bradstreet, Inc. (D&B) to uniquely identify business entities. If a responder does not already have a DUNS number, a number may be obtained from the D&B by telephone (currently 866-705-5711) or the Internet (currently at <http://fedgov.dnb.com/webform>). The responder must have a DUNS number before their response is submitted.

7. Human Rights Compliance

a. **Affirmative Action Certification.** ([Affirmative Action Data Page- DHS-7016-ENG](#))⁷: For all contracts estimated to be in excess of \$100,000, Responders are required to complete and submit the attached "Affirmative Action Data" page. As required by Minnesota Rules, part 5000.3600, "It is hereby agreed between the parties that Minnesota Statutes, section 363A.36 and Minnesota Rules, parts 5000.3400 - 5000.3600 are incorporated into any contract between these parties based upon this specification or any modification of it. A copy of Minnesota Statutes, section 363A.36 and Minnesota Rules, parts 5000.3400 - 5000.3600 are available upon request from the contracting agency." Any Applications for grants that exceed \$100,000 that do not include the Affirmative Action Data Page form with the Application will fail this component.

b. **Equal Pay Certificate.** ([Equal Pay Certificate Compliance – DHS -7075-ENG](#))⁸

(i.) **Scope.** Pursuant to Minnesota Statutes, section 363A.44, the State shall not execute a contract for goods or services or an agreement for goods or services in excess of \$500,000 with a business that has 40 or more full-time employees in the State of Minnesota or a state where the business has its primary place of business on a single day during the prior 12 months, unless the business has an equal pay certificate or it has certified in writing that it is exempt.

This section does not apply to a business, with respect to a specific contract, if the commissioner of administration determines that the requirements of this section would cause undue hardship on the business. This section does not apply to a contract to provide goods or services to individuals under Minnesota Statutes, chapters 43A, 62A, 62C, 62D, 62E, 256B, 256I, 256L, and 268A, with a business that has a license, certification, registration, provider agreement, or provider enrollment contract that is a prerequisite to providing those good or services.

⁸ <https://edocs.dhs.state.mn.us/lfsrserver/Public/DHS-7075-ENG>

(ii.) Application. If your response to this RFP is or could be within the scope of Minnesota Statutes, section 363A.44, you must apply for an equal pay certificate by paying a \$150 filing fee and submitting an equal pay compliance statement to the Minnesota Department of Human Rights (“MDHR”). MDHR’s Equal Pay Certificate Application Form can be obtained at https://mn.gov/mdhr/assets/Equal_Pay_Certificate_Application_Form_tcm1061-297964.pdf. **It is your sole responsibility to submit this statement to MDHR and – if required – apply for an equal pay certification before the due date of this proposal and obtain the certification prior to the execution of any resulting contract.**

(iii.) Revocation of Contract. If a contract is awarded to a business that does not have an equal pay certificate as required by Minnesota Statutes, section 363A.44, or is not in compliance with the laws identified within section 363A.44, MDHR may void the contract on behalf of the state, and the contract may be abridged or terminated by DHS upon notice that the MDHR has suspended or revoked the certificate of the business.

(iv.) Equal Pay Certificate Compliance Form. You must complete the Equal Pay Certificate of Compliance Form and submit it with your proposal. The Equal Pay Certificate of Compliance Form can be obtained at <https://edocs.dhs.state.mn.us/lfsrserver/Public/DHS-7075-ENG>. Any applications for grants that exceed \$500,000 that do not include the Equal Pay Certificate of Compliance Form with the application will fail this component.

8. Certification Regarding Lobbying ([Certificate Regarding Lobbying Form- DHS-7017-ENG](https://edocs.dhs.state.mn.us/lfsrserver/Public/DHS-7017-ENG))⁹: For all contracts estimated to be in excess of \$100,000 and federal money will be used or may potentially be used to pay for all or part of the work under the contract, therefore the responder must complete and submit the attached “Certification Regarding Lobbying” form. Any Applications for grants that exceed \$100,000 that do not include the Certificate Regarding Lobbying form with the Application will fail this component.

Technical Assistance

There are a number of potential sources of technical assistance (TA) for persons developing Live Well at Home proposals. The Eldercare Development Partnership (EDP) can provide valuable information about service gaps, existing funding streams and current programs as well as suggestions concerning program concepts and Application strategies.

EDP is a state-funded program to provide TA to local providers to develop and implement service delivery models in line with the State's long-term services and supports policy directions. B. Proposal Submission

Responders must submit an online proposal through the Live Well at Home Grants Application service website located at <http://www.mn.gov/dhs/live-well>. The online Application must be received by 4:00 p.m. Central Time on June 29, 2018 to be considered. Late proposals will not be considered. Hand-delivered, faxed or e-mailed proposals will not be accepted.

V. Proposal Evaluation and Selection

A. Overview of Evaluation Methodology

1. All responsive proposals received by the deadline will be evaluated by the State. Proposals will be evaluated on “best value” as specified below, using a 1,000 point scale. The evaluation will be conducted in three phases:

- a. Phase I Required Statements Review
- b. Phase II Evaluation of Proposal Requirements
- c. Phase III Selection of the Successful Responder(s)

2. During the evaluation process, all information concerning the proposals submitted, except identity, address, and the amount requested by responder, will remain non-public and will not be disclosed to anyone whose official duties do not require such knowledge.

3. Nonselection of any proposals will mean that either another proposal(s) was determined to be more advantageous to the State or that the State exercised the right to reject any or all proposals. At its discretion, the State may perform an appropriate cost and pricing analysis of a responder's proposal, including an audit of the reasonableness of any proposal.

B. Evaluation Team

1. An evaluation team will be selected to evaluate responder proposals.

2. State and professional staff, other than the evaluation team, may also assist in the evaluation process. This assistance could include, but is not limited to, the initial mandatory requirements review, contacting of references, or answering technical questions from evaluators.

3. The State reserves the right to alter the composition of the evaluation team and their specific responsibilities.

C. Evaluation Phases

At any time during the evaluation phases, the State may, at the State’s discretion, contact a responder to (1) provide further or missing information or clarification of their proposal, (2) provide an oral presentation of their proposal, or (3) obtain the opportunity to interview the proposed key personnel. Reference checks may also be made at this time. However, there is no guarantee that the State will look for information or clarification outside of the submitted written proposal. Therefore, it is important that the responder ensure that all sections of the proposal have been completed to avoid the possibility of failing an evaluation phase or having their score reduced for lack of information.

1. Phase I: Required Statements Review

The Required Statements, including Accessibility Standards, will be evaluated on a pass or fail basis. Responders **must "pass"** each of the requirements identified in this section to move to Phase II.

2. Phase II: Evaluation of Technical Requirements of Proposals

a. Points have been assigned to these component areas. The total possible points for these component areas are as follows:

Component Total	Possible Points
i. Executive Summary	5
ii. Description of the Responder Agency	125
iii. Description of the Target Population	125
iv. Workplan: Goal(s), Objectives, Activities and Implementation	250
vi. Evaluation Plan	125
vii. Nursing Facility Closure Preference	20
vii. Budget Proposal	300
viii. Innovative Concepts	<u>50</u>
Total:	1000

b. The evaluation team will review the components of each responsive proposal submitted. Each component will be evaluated on the responder's understanding and the quality and completeness of the responder's approach and solution to the problems or issues presented.

c. After reviewing the proposals, the members of the evaluation team will rate each proposal component using the following formula:

Component Rating	Point Factor
Excellent	1.0
Very Good	0.8
Good	0.7
Satisfactory	0.5
Poor	0.3
Unacceptable	0.0

Upon determining which of the above ratings best describes the component being rated, the total possible points available for the component from paragraph (a) will be multiplied by the corresponding point factor.

Example: A “very good” rating (0.8) of a Proposed Budget worth a maximum of 300 points would receive a score of 240 ($300 \times 0.8=240$)

d. Innovative Concepts (Optional). The amount of innovative concepts points to be given a proposal for innovative concepts is at the sole discretion of the State, depending on how much the State determines the ideas enhance the rest of the proposal. The amount given, up to 50 points, will be by consensus of the evaluation team. The State is under no obligation to give a proposal any innovative concepts points in any situation. Innovative concepts points will not cause the total available points to exceed 1,000.

3. Phase III: Selection of the Successful Responder(s)

a. Only the proposals found to be responsive under Phases I and II will be considered in Phase III.

b. The evaluation team will review the scoring in making its recommendations of the successful responder(s).

c. The State may submit a list of detailed comments, questions, and concerns to one or more responders after the initial evaluation. The State may require said response to be written, oral, or both. The State will only use written responses for evaluation purposes. The total scores for those responders selected to submit additional information may be revised as a result of the new information.

d. The evaluation team will make its recommendation based on the above-described evaluation process. The successful responder(s), if any, will be selected approximately 10 weeks after the proposal submission due date.

D. Contract Negotiations and Unsuccessful Responder Notice

If a responder(s) is selected, the State will notify the successful responder(s) in writing of their selection and the State's desire to enter into contract negotiations. Until the State successfully completes negotiations with the selected responder(s), all submitted proposals remain eligible for selection by the State.

In the event contract negotiations are unsuccessful with the selected responder(s), the evaluation team may recommend another responder(s).

After the State and chosen responder(s) have successfully negotiated a contract, the State will notify the unsuccessful responders in writing that their proposals have not been accepted. All public information within proposals will then be available for responders to review, upon request.

VI. Required Contract Terms and Conditions

A. Requirements. All responders must be willing to comply with all state and federal legal requirements regarding the performance of the grant contract. The requirements are set forth throughout this RFP and are contained in the attached grant contract in the Appendix.

B. Governing Law/Venue. This RFP and any subsequent contract must be governed by the laws of the State of Minnesota. Any and all legal proceedings arising from this RFP or any resulting contract in which the State is made a party must be brought in the State of Minnesota, District Court of Ramsey County. The venue of any federal action or proceeding arising here from in which the State is a party must be the United States District Court for the State of Minnesota.

C. Travel. Reimbursement for travel and subsistence expenses actually and necessarily incurred by the grantee as a result of the grant contract will be in no greater amount than provided in the current "Commissioner's Plan" promulgated by the commissioner of Minnesota Management and Budget. Reimbursements will not be made for travel and subsistence expenses incurred outside Minnesota unless it has received the State's prior written approval for out of state travel. Minnesota will be considered the home state for determining whether travel is out-of-state.

D. Preparation Costs. The State is not liable for any cost incurred by Responders in the preparation and production of a proposal. Any work performed prior to the issuance of a fully

executed grant contact will be done only to the extent the responder voluntarily assumes risk of non-payment.

E. Contingency Fees Prohibited. Pursuant to Minnesota Statutes, section 10A.06, no person may act as or employ a lobbyist for compensation that is dependent upon the result or outcome of any legislation or administrative action.

F. Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion. Federal money will be used or may potentially be used to pay for all or part of the work under the contract, therefore the responder must certify the following, as required by the regulations implementing Executive Order 12549.

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.

The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 C.F.R. 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

GRANTEE certifies that neither it nor its principles is presently debarred or suspended by the STATE, or any of its departments, commissions, agencies, or political subdivisions. GRANTEE'S certification is a material representation upon which the grant contract award was based. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY, AND VOLUNTARY EXCLUSION

Federal money will be used or may potentially be used to pay for all or part of the work under the grant contract, therefore GRANTEE certifies that it is in compliance with federal requirements on debarment, suspension, ineligibility and voluntary exclusion specified in the solicitation document implementing Executive Order 12549. 23.2. The GRANTEE further agrees to keep in force a blanket employee theft/employee dishonesty policy in at least the total amount of the first year's grant award as either an addendum on its property insurance policy, or, if it is not feasible to include it as an addendum to a property insurance policy, as a stand-alone employee theft/employee dishonesty policy. The STATE will be named as both a joint payee and a certificate holder on the employee theft/employee dishonesty addendum or on the stand-alone employee theft/employee dishonesty policy, whichever is applicable.
